SUMMARY

Data-driven analyst skilled in SQL, Tableau, Power BI, and Excel, transforming complex datasets into actionable insights through data modeling, visualization, and reporting to drive business decisions.

EDUCATION

Bachelor of Science in Information Technology (Concentration: Business Intelligence) **Sept 2022 - May 2026**
University of Massachusetts, Boston, MA **(3.7/4.0 GPA)**

TECHNICAL SKILLS

Programming Languages: SQL, Python, R, Linux, HTML/CSS
Tools: Tableau, Power BI, Ubuntu, MySQL Workbench, Jupyter, IDLE, MailChimp, MS Excel, MS Word, MS PowerPoint
Core Skills: Data Analytics, Data Visualization, Business Intelligence, Database Management, Advanced Excel, Digital Marketing

WORK EXPERIENCE

Data and Marketing Assistant | Living on Earth, Boston, MA **Feb 2023 - Present**

- Led monthly analysis of large, multi-source listenership datasets using **SQL and advanced Excel**, identifying retention patterns and audience segments that informed leadership decisions and **drove 25% audience growth.**
- Built **ETL processes** that transformed fragmented **Excel** and Little Green Light records into **Power BI dashboards**, enabling faster analysis and improving **campaign workflow efficiency by 30%.**
- Analyzed **top 500 donor contribution data** to surface engagement patterns and support targeted fundraising planning.
- Evaluated **YouTube analytics** to find performance gaps to support optimization leading to 20% increase in online viewership.

Marketing Analyst Intern | Business Intelligence | Solomon Consulting Group, Boston, MA **June 2025 - Aug 2025**

- Designed and executed a **market readiness survey** for the E3 Energy-Saving Portal, collecting **200+ responses** and leveraging **SQL** to clean, validate, and prepare high-quality datasets for accurate analysis and strategic decision-making.
- Led the development of **executive-facing Tableau dashboards**, analyzing adoption and demographic KPIs to uncover **30% high-adoption customer segments**, driving data-informed marketing strategy and customer engagement decisions.
- Synthesized survey findings to solve the problem of uncertain market fit and enabled Solomon Group to confidently **launch the E3 Portal with validated consumer interest** and a forecast of potential adoption.

Data Analyst Intern | GVM Global, India **Jun 2021 - July 2022**

- Applied **SQL and advanced Excel (Pivot Tables, Lookups, Index/Match)** to analyze **10+ marketing campaigns,** identifying KPIs and performance gaps that **improved overall campaign ROI by 20%.**
- Designed and built **interactive dashboards** to replace manual campaign tracking and monitor social media engagement in real time, **improving operational efficiency by 35%** and enabling data-driven decision-making for marketing teams.
- Maintained 95% client satisfaction and reduced churn by analyzing **1,000+ client queries with SQL** to detect recurring issues.

ACADEMIC PROJECTS

- **Curia: Legislative Data & Insights Mobile App (Excel, Power BI)**

Analyzed **100+ user survey responses** in Excel and built interactive **Power BI dashboards** to uncover adoption trends, usability gaps, and feature demand, providing actionable insights that informed product validation and feature prioritization.

- **Tech Trove (HTML, JavaScript, CSS)**

Built a **responsive web marketplace** for refurbished gadgets using **HTML, CSS, and JavaScript**, optimizing navigation, accessibility, and cross-device compatibility to deliver a seamless user experience and support sustainable technology resale.

- **Trek Buddy (MySQL, Excel)**

Developed a **relational database management system** in **MySQL** to automate trail reservations, manage user records, and optimize resource allocation, improving operational efficiency through structured database design and SQL-based data retrieval.

- **Singapore Government Expenditure Analysis (MySQL, Tableau)**

Processed **25 years of Singapore government expenditure data** using **MySQL** and created interactive **Tableau dashboards** to visualize spending patterns, identify long-term trends, and communicate insights for data-driven decision-making.
